## Driplines and Drippers

### GR

The product that established Eurodrip in the conscience of farmers worldwide as the brand they can depend on, well proven track record since 1979 in rough and demanding conditions, integrates the reliable, efficient turbulent dripper.

Outer diameters: 16 / 18 / 20 mm  
Flow Rates: 1 / 2 / 4 / 8 lph  
Coil lengths: 25 / 50 / 100 / 300 or 400  
Coil color: **Black and Brown**

### NGR

The evolution of the classic GR surpasses its predecessor and is proven to be even more accurate and efficient. Super compact, lower CV, longer line lengths only name a few of its advantages. Maintaining impeccable tubing quality and we have an all-around winner.

Outer diameters: 16 / 18 / 20 mm  
Flow Rates: 1 / 2 / 4  
Coil lengths: 25 / 50 / 100 / 300 or 400  
Coil color: **Black and Brown**

### Blank Tube

Protected by worldwide patent, this dripperline incorporates all must-have characteristics and then some: highly turbulent flow, large path, double filtration inlets, continuous self flushing operation, very high (low uniformity), the widest pressure compensating range of the market. PC2 dripperline is the key product for the irrigation of longer runs, steep topographies and precision needs.

Outer diameters: 16 / 18 / 20 mm  
Flow Rates: 1 / 2 / 4  
Coil lengths: 25 / 50 / 100 / 300 or 400  
Coil color: **Black and Brown**

Our blank tube is produced with the same high quality resins used for our driplines. Therefore it is able to operate properly under several pressure conditions up to 6 bars and provides reliable performance in the toughest UV and chemical conditions. In conjunction with our Corona on-line dripper, it is a cost efficient solution for any application.

Outer diameters: 16 / 20 mm  
Coil lengths: 25 / 50 / 100 / 200 / 250 / 300  
Coil color: **Black, Brown and White**

## Corona Drippers

Our objective during the design engineering phase of our online "Corona" dripper was the high-end of drip irrigation. "Corona" online dripper is simply unmatched at clogging resistance, uniformity, accuracy, installation time and connection versatility.

### Corona PC

2 lt/h

3 lt/h

4 lt/h

8 lt/h

24lt/h

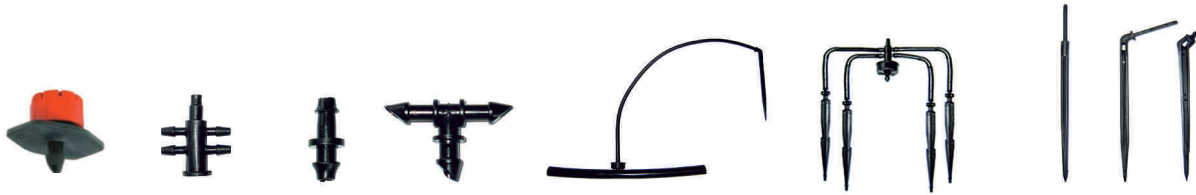

### Corona ND

Nurseries, greenhouses, net houses and abroculture are only a few of the crops "Corona" on-line drippers are used. "Drain" and "No Drain" options complete the flow rates of 2 / 3 / 4 / 8 / 24 lph.

## Accessories, Fittings, Products

### Corona Accessories

Wide connection options and accessories are available by Eurodrip to cover all design specifics and crop demands: ● Single, double quadruple manifolds ● Capillars at different diameters ● Straight or angular spikes at specific or free-flow design.

### Gardening Fittings

Fit to deliver an all inclusive package solution to our wide customer base (from master distributors to small projects), we recommend connectors thoroughly tested and approved by our Quality Assurance Service. Thus we deliver our loyal clientele all-around benefits and savings.

### Filters

Market leaders in filter manufacturing entrust Eurodrip with global alliances enabling us to offer complete packages that match all irrigation needs: from inline plastic filters to clusters of disc or gravel filtering installations.

### Valves

From plastic minivalves made of PE for standard needs, to remotely controlled iron cast self-regulating valves, at Eurodrip, we can recommend the ideal solution for any installation.

### Eurodrip Kit

Eurodrip has developed an irrigation kit suitable for irrigating 50 plants or pots. It is very easy to install in three simple steps and includes all necessary accessories and fittings for the perfect irrigation of a balcony, terrace or a small garden. The Corona online drippers included in the kit have different flow rates 2lph 4lph and 8lph in order to best irrigate your small, medium and large plants respectively. Moreover, the kit contains a programmer and a filter/pressure reducer in order to achieve the best possible treatment for your plants, even when you are not present.

### Controllers

A great variety of controllers and timers are available for any use. Our controllers are suitable for all needs, from a small yard or garden to great landscaping projects. The module series includes several types, from the simplest operating products for residential use, to high-tech wireless mechanisms providing many different settings.
